

Task 1: Terms and definitions

My mother said:
If you have
nothing to do -
do not do it here!*

* *This she used to say when I was a kid and she was busy with house chores.
Now my mother is a retired grandmother and says:
"If you have nothing to do – PLEASE do it here!"*

Questions to answer:

1. Search in books or the internet for definitions and explanations of the terms in **BOLD**.
2. Write in your own words what you find and what you think.
3. What do you think my mother meant when saying the above then and now the note * below?

Remember - each task of Bar-Messimah™ has 3 parts:

1. The questions or projects to do.
2. Some ideas on the answers or what to do in the project.
3. Your report of the answers or progress made in the project.

Some ideas on the answers or what to do in the project

1. Write what you think the terms are and then look them up in a dictionary. Add if you find it needed. You may write an essay using these terms and demonstrating that you have understood their meaning.
2. At the end of the book you will find a glossary. No need to copy the description from there to here☺
3. Take from your "tool-box" some willpower to challenge yourself. Use some imagination too, and create yourself a great report.
